GEOLOGÍA

001 Allegre, C. J.: *Isotope Geology*. Translated by C. Sutcliffe
2008 – 512 pp., 278 fig., 8 lám. €53,40

ÍNDICE: Isotopes and radioactivity — The principles of radioactive dating — Radiometric dating methods — Dating by cosmogenic isotopes — Uncertainties and results of radiometric dating — Radiogenic isotope geochemistry — Stable isotope geochemistry — Isotope geology and dynamic reservoir analysis.

002 Alonso Zarza, A. M. / L. H. Tanner, eds.: *Carbonates in Continental Settings. Facies, Environments and Processes*

2010 – 400 pp. €123,00

ÍNDICE: E. H. Gierlowski-Kordesch: Lacustrine carbonates — A. M. Alonso-Zarza, / V. P. Wright: Palustrine carbonates — C. Arenas-Abad & al.: Fluvial and associated carbonate deposits — B. Jones, / R. W. Renault: Calcareous spring deposits in continental settings — A. M. Alonso-Zarza / V. P. Wright: Calcretes — S. Frisia, / A. Borsato: Karst — J. F. Genise & al.: Invertebrate and vertebrate trace fossils from continental carbonates.

003 Ambraseys, N.: *Earthquakes in the Mediterranean and Middle East. A Multidisciplinary Study of Seismicity up to 1900*

2009 – 968 pp., 83 fig., 23 map. €158,00

004 Ben-Zion, Y. / C. Sammis, eds.: *Mechanics, Structure and Evolution of Fault Zones*

2009 – 382 pp., 154 fig. €64,15

ÍNDICE: Finzi & al.: Structural properties and deformation patterns of evolving strike-slip faults: numerical simulations incorporating damage rheology — de Joussineau / Aydin: Segmentation along strike-slip faults revisited — Griffith & al.: Influence of outcrop scale fractures on the effective stiffness of fault damage zone rocks — Sammis & al.: Effects of off-fault damage on earthquake rupture propagation: experimental studies — Lockner & al.: Geometry of the Nojima fault at Nojima-Hirabayashi, Japan - I. A simple damage structure inferred from borehole core permeability — Moore & al.: Geometry of the Nojima fault at Nojima-Hirabayashi, Japan - II. Microstructures and their implications for permeability and strength — Nguyen / Einav: The energetics of cataclasis based on breakage mechanics — Rockwell & al.: Chemical and physical characteristics of pulverized tejon lookout granite adjacent to the San Andreas and Garlock faults: implications for earthquake physics — Dor & al.: Characterization of damage in sandstones along the Mojave section of the San Andreas fault: implications for the shallow extent of damage generation — Beeler: Constructing constitutive relationships for seismic and aseismic fault slip — Dieterich / Smith: Non-planar faults: mechanics of slip and off-fault damage — Candela & al.: Characterization of fault roughness at various scales: implications of three-dimensional high resolution topography measurements — Hsu & al.: Spatio-temporal slip, and stress level on the faults within the western foothills of Taiwan: implications for fault frictional properties — Regenauer-Lieb & al.: Landslides, ice quakes, earthquakes: a thermodynamic approach to surface instabilities.

005 Bundschuh, J. / G. E. Alvarado, eds.: *Central America. Geology, Resources and Hazards*, 2 vols.

2007 – 1.436 pp., 377 fig., 151 tabl. €289,50

ÍNDICE: *Volume 1: Regional Overview:* General introduction: General geology — Geomorphology — Tectonics and geodynamics — Stratigraphy and paleontology — Igneous and metamorphic petrology — *Volume 2: Geological Resources:* Hydrogeology and groundwater resources — Geothermics and geothermal resources — Fossil fuel and mineral resources — Geological heritage resources — Geological hazards — Seismic hazards and monitoring — Volcanic hazards and monitoring — Landslides and tsunamis.

006 Cloeting, S. A. P. L. / J. Negendank, eds.: *New Frontiers in Integrated Solid Earth Sciences*

2010 – xx + 414 pp., 189 fig. €106,95

ÍNDICE: Introduction: Perspectives on integrated solid earth sciences — 3d crustal model of western and central Europe as a basis for modelling mantle structure — Thermal and rheological model of the European lithosphere — Thermo-mechanical models for coupled lithosphere-surface processes — Achievements and challenges in sedimentary basins dynamics — Recent developments in earthquake hazards studies — Passive seismic monitoring of natural and induced earthquakes: case studies, future directions and socio-economic relevance — Non-volcanic tremor and slow slip — Volcanism in reverse and strike-slip fault settings — DynaQlim – upper mantle dynamics and quaternary climate in cratonic areas — Ultradeep rocks and diamonds in the light of advanced scientific technologies — New views of the earth's inner core from computational mineral physics.

007 Di, L. / H. Ramapriyan, eds.: *Standard-based Data and Information Systems for Earth Observation*

2010 – x + 248 pp., 60 fig. €139,00

ÍNDICE: L. Di / H. K. Ramapriyan: Standards-based data and information systems for earth observations – An introduction — D. Zhang & al.: Use of NWGIS to implement a data node in China's spatial information grid — K. R. McDonald & al.: Data integration support to the coordinated enhanced observing period project (CEOP) — G. Percivall: Progress in OGC web services interoperability development — H. K. Ramapriyan & al.: Evolution of the earth observing system (EOS) data and information system (EOSDIS) — H. Conover & al.: SCOOP data management: a standards-based distributed information system for coastal data management — R. Duerr & al.: A New approach to preservation metadata for scientific data – A real world example — R. H. Rank & al.: Archive standards: how their adoption benefit archive systems — L. C. Rodman & al.: An association rule discovery system applied to geographic data — H. K. Ramapriyan & al.: An intelligent archive testbed incorporating data mining — Peng Yue & al.: Semantic augmentations to an eBRIM profile of catalogue service for theweb — P. Zhao / Liping Di: Geospatial knowledge discovery using semantic web services — R. E. Ullman / Y. Enloe: Accelerating technology adoption through community endorsement.

008 Djunin, V. / A. Korzun: *Hydrogeodynamics of Oil and Gas Basins*

2009 – xx + 396 pp., 113 fig. €139,00

009 Ferrier, R. / A. Jenkins, eds.: *Handbook of Catchment Management*

2009 – 560 pp. €127,00

ÍNDICE: R. C. Ferrier / A. Jenkins: The catchment management Concept — M. Acreman / J. O. Mountford: Wetland management — R. M. J. Schielen: Flood management — N. Friberg: Ecological consequences of river channel management — A. Sharpley & al.: Managing agricultural catchments to sustain production and water quality — A. Jenkins / R. Ferrier: Effluent Management — J. B. Ellis: Managing urban runoff — D. Kay & al.: Catchment to coast systems - Managing microbial pollutants for bathing and shellfish harvesting waters — S. Khan: Irrigation management in a catchment context — B. Barraque: Managing potable water supplies — H. Thaulow & al.: Managing catchments for hydropower generation — P. Weller: The Danube river - The Most international river basin — S. Ryan: Murray-Darling Basin - Integrated management in a large, dry and thirsty basin — J. C. Rodda: Water resources in south east England - A dilemma in sustainable development — J. Waterhouse & al.: Managing the catchments of the Great Barrier Reef — M. C. Acreman: Catchment management case study - Senegal River — M. V. O. Espaldon: Laguna de bay - A tropical lake under pressure — T. Simpson: Chesapeake bay catchment management - lessons learned from a collaborative, science-based approach to water quality restoration — J. B. Ellis: The Glasgow strategic drainage plan — G. Morgenschweis: The Ruhr Catchment (Germany) - The contribution of reservoirs to integrated river basin management — P. Wolski: Evolution of river basin management in the Okavango system, Southern Africa — F. J. Wrona: Basin management approaches used in a high-latitude northern Catchment - The Mackenzie river basin — R. C. Ferrier & al.: The future for Catchment management.

010 Fluegel, E.: *Microfacies of Carbonate Rocks. Analysis, interpretation and Application*

2010² – 1.008 pp., 1 CD-ROM, fig. €139,00

ÍNDICE: New perspectives in microfacies — Carbonate depositional environments microfacies analysis — Methods — Microfacies data: matrix and grains — Microfacies data: fabrics — Quantitative microfacies analysis — Diagenesis, Porosity, and Dolomitization — Classification – A name for your sample — Limestones are biological sediments — Fossils in thin section: it is not that difficult — Microfacies interpretation — Summarizing microfacies criteria: microfacies types — Recognizing paleoenvironmental conditions — Integrated facies analysis — Depositional models, facies zones and standard microfacies — Basin analysis: recognizing depositional settings — Realizing depositional constraints and processes — Practical use of microfacies — Reservoir rocks and host rocks — Carbonate rock resources, facies, weathering, preservation — Microfacies and archaeology — Adding some samples by A. Munnecke.

011 Gaudant, J., ed.: *L'essor de la géologie française: essais*

2009 – 380 pp. €45,00

012 Greve, R. / H. Blatter: *Dynamics of Ice Sheets and Glaciers*

2009 – xiv + 288 pp., 105 fig. €106,95

013 Guidoboni, E. / J. E. Ebel: *Earthquakes and Tsunamis in the Past. A Guide to Techniques in Historical Seismology*

2009 – 604 pp., 140 fig. €105,50

ÍNDICE: 1. *Defining Historical Seismology:* 1. What is historical seismology? — The importance of historical earthquake and tsunami data — 2. *Issues Concerning the Interpretation of Historical Earthquake and Tsunami Data:* Written historical sources and their use — Types of scientific sources — Other types of sources — Potential problems in historical records — Determination of historical earthquakes: dates and times — 3. *Practical Guidelines for the Analysis of Historical Earthquake Data:* Planning the goals of the analysis of historical earthquakes — Processing historical records — From interpretation of historical records to historical seismic scenarios — Traces of earthquakes in archaeological sites and in monuments — Deriving earthquake source and shaking parameters from historical data — Cooperation in historical seismology research.

014 Gupta, A. K.: *Physics and Chemistry of the Earth's interior. Crust, Mantle and Core*

2009 – 200 pp., 134 fig., 20 lám. €106,95

ÍNDICE: Geophysical and experimental petrological studies of the earth's interior — Modeling of metamorphic textures with C space: evidence of pan-african high grade reworking in the eastern ghats belt, India — Orogenic processes in collisional tectonics with special reference to the Himalayan mountain Chain — Some remarks on melting and extreme metamorphism of crustal rocks — Closure temperature, cooling age and high temperature thermochronology — Thermobarometry gone astray — On fluids in the dynamic earth — Laboratory measurements of ultrasonic wave velocities of crustal

rocks at high pressures and temperatures: petrological structure of Izu-Bonin-Mariana arc crust — Seismic imaging of the mantle discontinuities beneath India: from archaic cratons to Himalayan subduction zone — Models for constraining — Thermal structure of the Indian crust — Convection in the earth's Mantle.

015 Haertel, H. & Al., eds.: *Sandstone Landscapes*

2007 – 494 pp., lám., fig., 1 displ. €68,00

016 Hoorn, C. / F. Wesselingh, eds.: *Amazonia, Landscape and Species Evolution: a Look into the Past*

2010 – 464 pp. €121,00

ÍNDICE: C. Hoorn / F. P. Wesselingh: Introduction: Amazonia, landscape and species evolution — 1. *Tectonic Processes as Driving Mechanisms for Palaeogeographical and Palaeoenvironmental Evolution in Amazonia:* S. B. Kroonenberg / E. W. F. de Roever: Geological evolution of the Amazonian craton — J. Ribeiro Wanderley-Filho & al.: The paleozoic Solimões and Amazonas basins and the acre foreland basin of Brazil — A. Mora & al.: Tectonic history of the Andes and sub-Andean zones: implications for the development of the Amazon drainage basin — M. Roddaz: Cenozoic sedimentary evolution of the Amazonian foreland basin system — N. Espurt: The Nazca ridge and uplift of the Fitzcarrald arch: implications for regional geology in northern South America — 2. *Cenozoic Depositional Systems in Amazonia:* C. Hoorn & al.: The Amazonian craton and its influence on past fluvial systems (mesozoic-cenozoic, Amazonia) — C. Hoorn & al.: The development of the Amazonian mega-wetland (miocene; Brazil, Colombia, Peru, Bolivia) — J. Hovikoski & al.: Marine influence in Amazonia: evidence from the geological record — M. J. Wilkinson & al.: Megafan environments in northern South America and their impact on Amazon neogene aquatic ecosystems — G. Irion / R. Kalliola: Long-term landscape development processes in Amazonia — 3. *Amazonian Climate, Past and Present:* H. B. Vonhof / R. J. G. Kaandorp: Climate variation in Amazonia during the neogene and the quaternary — P. Sepulchre & al.: Modelling the response of Amazonian climate to the uplift of the Andean mountain range — B. Bookhagen / M. R. Strecker: Modern Andean rainfall variation during ENSO cycles and its impact on the Amazon drainage basin — 4. *Cenozoic Development of Terrestrial and Aquatic Biota: Insights from the Fossil Record:* F. R. Negri & al.: A review of Tertiary mammal faunas and birds from western Amazonia — D. Riff & al.: Neogene crocodile and turtle fauna in northern South America — J. G. Lundberg: The Amazonian neogene fish fauna — F. P. Wesselingh / M.-I. F. Ramos: Amazonian aquatic invertebrate faunas (Mollusca, Ostracoda) and their development over the past 30 million years — C. Jaramillo & al.: The origin of the modern Amazon rainforest: implications of the palynological and palaeobotanical record — H. Behling & al.: Biotic development of quaternary Amazonia: a palynological perspective — 5. *Modern Perspectives on the Origin of Amazonian Biota:* H. Steege & al.: Contribution of current and historical processes to patterns of tree diversity and composition of the Amazon — J. F. Duivenvoorden / A. J. Duque: Composition and diversity of northwestern Amazonian rainforests in a geoeological context — R. Toby Pennington / C. W. Dick: Diversification of the Amazonian flora and its relation to key geological and environmental events: a molecular perspective — A. Antonelli & al.: Molecular studies and phylogeography of Amazonian tetrapods and their relation to geological and climatic models — N. R. Lovejoy & al.: Molecular signatures of neogene biogeographical events in the Amazon fish fauna — 6. *Synthesis:* F. P. Wesselingh & al.: On the origin of Amazonian landscapes and biodiversity: a synthesis.

047 Swart, P./G. Eberli/J. McKenzie, eds.: *Perspectives in Carbonate Geology*

2009 – 400 pp. €96,00

ÍNDICE: Depth and species-related patterns of Holocene reef accretion in the Caribbean and western Atlantic: a critical assessment of existing models — The mystique of beachrock — A reevaluation of facies on Great Bahama Bank I: new facies maps of western Great Bahama Bank — A reevaluation of facies on Great Bahama Bank II: variations in the $\delta^{13}\text{C}$, $\delta^{18}\text{O}$ and mineralogy of surface sediments — Stable isotopes of carbon and oxygen in modern sediments of carbonate platforms, barrier reefs, atolls and ramps: patterns and implications — A tale of two storms: an integrated field, remote sensing, and modelling study examining the impact of hurricanes Frances and Jeanne on carbonate systems, Bahamas — Rapid recycling and deposition of organic-rich carbonates within the coastal complex of southwest Florida — The paradoxical occurrence of oolitic limestone on the eastern islands of Great Bahama Bank: where do the ooids come from? — Calcareous epiphyte production in cool-water carbonate depositional environments, southern Australia — Microbes versus metazoans as dominant reef builders: insights from modern marine environments in Exuma Cays, Bahamas Microbial dolomite precipitation under aerobic conditions: results from Brejo do Espinho Lagoon (Brazil) and culture experiments — Karst subbasins and their relationship to cross-Florida platform transport of tertiary siliciclastics — Controls on facies mosaics of carbonate platforms: a case study from the Oxfordian of the Swiss Jura — On the allocyclic interpretation of the 'Latemar Cycles' (Middle Triassic, the Dolomites, Italy) and implications for high-frequency cyclostratigraphic forcing — Phylloid algal mounds in the Paradox basin, southwestern USA: an alternative to the in situ constructional growth model? — The Cincinnati arch: a stationary peripheral bulge during the late ordovician — Reinterpreting a proterozoic enigma: Conophyton - Jacutophyton stromatolite reefs of the mesoproterozoic Atar group, Mauritania — Layering - What does it mean? — Falling-stage systems tracts in tropical carbonate rocks — Early load-induced fracturing in a prograding carbonate margin — Markov models for linking environments and facies in space and time — Evaluating validity and reliability in high-resolution stratigraphic analysis.

048 Taylor, R.: *Ore Textures. Recognition and Interpretation*

2009 – 302 pp., fig., 1 CD-ROM €106,95

049 Taylor, S. R. / S. McLennan: *Planetary Crusts. Their Composition, Origin and Evolution*

2008 – 400 pp., 31 fig., 30 tabl. €92,30

050 Toth, J.: *Gravitational Systems of Groundwater Flow. Theory, Evaluation,*

Utilization

2009 – 310 pp., 41 fig. €92,35

ÍNDICE: Introduction — The ‘unit basin’ — Flow patterns in composite and heterogeneous basins — Gravity flow of groundwater: a geologic agent — Practical applications: selected case studies and histories — Gravitational systems of groundwater flow and the science of hydrogeology — Glossary.

051 Wang, C. / M. Manga: *Earthwakes and Water*

2009 – xii + 250 pp., 100 fig. €106,95

052 West, J. B. / G. J. Bowen / T. E. Dawson / K. P. Tu, eds.: *Isoscapes. Understanding Movement, Pattern, and Process on Earth through Isotope Mapping*

2010 – xxiv + 487 pp. €64,15

ÍNDICE: 1. *Gathering and Using Spatially Explicit isotope Data:* B. H. Vaughn & al.: Global network measurements of atmospheric trace gas isotopes — P. K. Aggarwal & al.: Global hydrological isotope data and data networks — L. Wang & al.: Remote sensing of nitrogen and carbon isotope compositions in terrestrial ecosystems — B. R. Helliker / D. Noone: Novel approaches for monitoring of water vapor isotope ratios: Plants, lasers and satellites — C. Kendall & al.: Applications of stable isotopes for regional to national-scale water quality and environmental monitoring programs — S.W. Leavitt & al.: Environment in time and space: Opportunities from tree-ring isotope networks — 2. *Isotope Mapping: Theory and Methods:* Statistical and geostatistical mapping of precipitation water isotope ratios — J. B. West & al.: Approaches to plant hydrogen and oxygen isoscapes generation — C. J. Still / R. L. Powell: Continental-scale distributions of vegetation stable carbon isotope ratios — D. Noone / C. Sturm: Comprehensive dynamical models of global and regional water isotope distributions — L. H. Pardo / K. J. Nadelhoffer: Using nitrogen isotope ratios to assess terrestrial ecosystems at regional and global scales — M. B. Wunder: Using isoscapes to model probability surfaces for determining geographic origins — 3. *Multidisciplinary Applications of Isoscapes:* K. A. Hobson & al.: Using isoscapes to track animal migration — B. S. Graham & al.: Using isoscapes to trace the movements and foraging behavior of top predators in oceanic ecosystems — M. J. Schoeninger: Toward a d13C isotope for primates — H. P. Schwarcz & al.: Stable and radiogenic isotopes in biological archaeology: some applications — J. R. Ehleringer & al.: A framework for the incorporation of isotopes and isoscapes in geospatial forensic investigations — J. J. Gibson & al.: Stable isotopes in large scale hydrological applications — D. E. Pataki & al.: The carbon isotope composition of plants and soils as biomarkers of pollution — G. J. Bowen & al.: Isoscapes in a rapidly changing and increasingly interconnected world.

053 Young, R. W. / R. A. L. Wray / A. R. M. Young: *Sandstone Landforms*

2009 – 314 pp., 116 fig., 5 tabl. €92,30

054 Zang, A. / O. Stephansson: *Stress Field of the Earth's Crust*

2010 – 342 pp., 1 DVD., 100 fig. €85,60

ÍNDICE: Introduction — 1. *Definition and Terminology:* Stress definition — Rock fracture criteria — Rock stress terminology — Crustal stress models — 2. *Measuring Stress:* Physics of stress

measurements — Measuring crustal stress: borehole methods — Measuring crustal stress: core-based methods — 3. *Interpreting Stress Data*: Local stress data — Generic stress data — Global stress — Epilogue.

055 Zhang, Shouxin: *Geological Formation Names of China (1866-2000)*, 2 vols.

2009 – xxxiv + 1.737 pp. €1.068,95

GEOGRAFÍA

056 Adams, C. & Al., eds.: *Amazon Peasant Societies in a Changing Environment. Political Ecology, Invisibility and Modernity in the Rainforest*

2009 – xxiv + 360 pp. €117,65

ÍNDICE: 1. *Identity, History and Society*: 1. Utopias and dystopias in the amazonian social landscape — Landscape transformation and language change: a case study in amazonian historical ecology — Mixed indians, caboclos and curibocas: historical analysis of a process of miscegenation; Rio Negro (Brazil), 18th and 19th centuries — ‘Sempre ajustando’ (always adjusting): an amazonian way of being in time — 2. *Sustainability and Development Policies*: Traditional populations: introduction to the critique of the political ecology of a notion — The domestic economy in Mamirauá, Tefé, Amazonas state — Patterns of resource use by caboclo communities in the middle-lower Amazon — 3. *Resource Management*: Agriculture intensification, economic identity, and shared invisibility in amazonian peasantry: caboclos and colonists in comparative perspective — The use of and access to forest resources: the caboclos of the lower Amazon and their socio-cultural attributes — 4. *Gender and Daily Life*: Women, gender relations and decision-making in caboclo domestic units in the Amazon estuary — ‘I love flowers’: home gardens, aesthetics and gender roles in a riverine caboclo community in the lower Amazon, Brazil — 5. *Diet and Health*: Bread of the land: the invisibility of manioc in the Amazon — Socio-ecology of health and disease: the effects of invisibility on the caboclo populations of the Amazon.

057 Adams, J.: *Vegetation-Climature Interaction. How Vegetation Makes the Global Environment*

2009² – xxviii + 266 pp. €106,95

058 Ahlhorn, F.: *Long-Term Perspective in Coastal Zone Development. Multifunctional Coastal Protection Zones*

2009 – xx + 220 pp., 92 fig. €106,95

059 Andel, J. & al., eds.: *Landscape Modelling. Geographical Space, Transformation and Future Scenarios*

2010 – xx + 236 pp., 37 fig. €106,95

ÍNDICE: 1. *Where the Moral Appeal Meets the Scientific Approach*: The weeping landscape — 2.

Landscape Concept in Contemporary Europe: Present changes in european rural landscapes — Environmental stressors as an integrative approach to landscape assessment — 3. Between Landscapes and Multi-Scale Regions: Environment and regional cohesion in the enlarged European union: differences in public opinion — Cross-border relationships of small- and medium-sized businesses — Land use changes along the iron curtain in Czechia — Landscape function transformations with relation to land use changes — 4. Changing Face of a Landscape: Identity and Perception: Memory of a landscape - a constituent of regional identity and planning? Landscape change in the Seewinkel: comparisons among centuries — Conditions of living — reality, reflections, comparisons and prospects — 5. Modelling and Geovisualization in Landscape Planning and Management: Geovisualisation of an urban landscape in participatory regional planning — Does landscape structure reveal ecological sustainability? Landscape approaches and GIS for biodiversity management in a Mediterranean forest landscape — Relief for models of natural phenomena.

060 Araque Jiménez, E. / J. D. Sánchez Martínez, eds.: *Repoblación forestal en Andalucía: intervenciones históricas y situación actual*

2009 – 365 pp., gráf., fig. €20,00

ÍNDICE: E. Araque Jiménez: La política de repoblación forestal en Andalucía con anterioridad a 1940. Contexto histórico y territorial — J. D. Sánchez Martínez: La repoblación forestal en Andalucía (1940-2006): una aproximación inicial — E. Rico Boquete: La administración forestal y la expansión del eucalipto por Andalucía occidental, 1900-1983 — E. de Simón Navarrete & al.: Repoblación forestal en zonas secas y semiáridas. Un ejemplo de repoblación en Granada — E. Moya García: Las comarcas del sur de la provincia de Jaén. Un ejemplo de los límites de la política de repoblación forestal en España — V. Jurado Doña: El sector forestal andaluz. Aproximación al impacto ecológico de la repoblaciones forestales en Andalucía durante el siglo XX — J. Gómez Zotano / P. García Martínez: La transformación de los espacios forestales en espacios protegidos: los montes y el futuro parque nacional de Sierra Bermeja — P. A. Tiscar Oliver: Pasado y perspectivas de las técnicas de repoblación forestal en Andalucía — R. Nieto Ojeda: Técnicas de trabajos de repoblación forestal y restauración hidrológico-forestal en los montes Navahondona — Guadahornillos.

061 *Áreas. Revista de ciencias sociales, 28 — 2009: Migraciones internacionales, contextos y dinámicas territoriales*

2009 – 168 pp., fig., map., tabl. €12,00

ÍNDICE: A. Pedreño Cánovas / F. Torres Pérez: Presentación. Migraciones internacionales, contextos y dinámicas territoriales — A. Pedreño Cánovas: Turistas y migrantes en el planeta resort. La movilidad espacial de la población como un capital desigualmente distribuido — M. L. Castellanos Ortega: Mujer, inmigrante y temporera: ¿triple discriminación? — E. Gadea & al.: Bolivianos en Argentina y España. De la migración tradicional a las nuevas rutas — I. García Borrego: «Acá» y «allá»: divisiones simbólicas e identificaciones etno-territoriales en las familias de origen inmigrante — N. Moraes Mena: Del mito de la desterritorialización a la multiterritorialidad: una revisión conceptual a partir de la migración uruguaya — F. Torres Pérez: La inserción residencial de los inmigrantes en la costa mediterránea española, 1998-2007, co-presencia residencia, segregación y contexto local — A. Castaño Madroñal: Inserción social y residencialidad: los casos de El Ejido y Sevilla — N. Miret: Inmigración y metropolización en Barcelona — J. D. Sempere Souvannavong: Parque Alsandro. Evolución e involución de un barrio marginal en San Juan de Alicante (España) — W. Berthomière: Israel como

espacio de visibilización «atípica» de la globalización migratoria en el Mediterráneo oriental — A. Ezzine: Mujeres marroquíes en los países árabes del Golfo Pérsico — M. Abbilahi Bahdon: Migración y lucha contra el terrorismo internacional en la república de Yibuti.

062 Arsel, M. / M. Spoor, eds.: *Water, Environmental Security and Sustainable Rural Development: Conflict and Cooperation in Central Eurasia*

2009 – 304 pp. €108,00

ÍNDICE: 1. *Follow the Water* — 2. *Transformation of Water Regimes*: K. Mielke & al.: Water, War and reconstruction irrigation management in the Kunduz region, Afghanistan Iskandar Abdullayev — J. Ellis / M. Arsel: Political ecology of marshland restoration in Iraq — C. Upton: Wells, water rights and sustainability: new politics and practices Mongolia's pastoral commons — J. Veldwisch: 'Adapting to demands': allocation, scheduling and delivery of irrigation water in Khorezm, Uzbekistan Gert — 3. *Waterscapes of Conflict and Cooperation*: H. Manthritlilake / J. Kazbekov: Water and geopolitics in central Asia Iskandar Abdullayev — B. Vener / M. E. Campana: Conflict and cooperation in the south Caucasus: the Kura-Araks basin of Armenia, Azerbaijan, and Georgia Berrin — K. Wegerich: 'Have your cake and eat it too': agenda setting in central asian transboundary rivers — A. Krutov / M. Spoor: Institutional change, cooperation and conflict in two central Asia's river basins — 4. *Re-Stating Water Management*: E. Herrfahrdt-Pähle: The politics of kyrgyz water policy — I. Stanchin / Z. Lerman: Water in Turkmenistan — M. Spoor: Cotton, environment and poverty: the case of Uzbekistan — 5. *Securing the Future, Democratizing Development*: M. Arsel / M. Spoor: The Role of water.

CIUDAD SOBRE CIUDAD

Interferencias entre pasado y presente urbano en Europa

Simposio internacional

2009 — 510 pp., fig. €15,00

ÍNDICE: *Inauguración oficial:* J. I. Mijangos Linaza: Presidente de la Fundación del patrimonio histórico de Castilla y León — J. L. de las Rivas Sanz: Ciudad sobre ciudad. Interferencias entre pasado y presente urbano en Europa — C. Guy: La adaptación de los centros históricos de las ciudades a los requisitos actuales de venta al por menor y ocio: la experiencia del Reino Unido — I. Samuels / J. Clark: Valoración del patrimonio y renovación del mercado inmobiliario: la experiencia de Pennine Lancashire — P. Pinon: Destrucción y protección: el patrimonio parisino — F.-R. Cypriani: Lille: el renacimiento de la ciudad histórica — I. Yeste Navarro: Descubriendo CaesarAugusta: la ciudad romana emerge en Zaragoza — E. Carazo Lefort: Ensayo de restitución gráfica de la forma urbana perdida de Valladolid — J. Navarro Palazón / P. Jiménez Castillo: De la medina a la villa: las transformaciones urbanísticas de la ciudad de Murcia tras la conquista cristiana — A.-J. Campesino Fernández: Cáceres: gestión reciente de una ciudad del patrimonio mundial (1986-2008) — X. L. Martínez Suárez: La Coruña: ciudad sobre ciudad — A. Álvarez Mora: La vivienda como indicador de la recuperación de los conjuntos históricos. Un balance en España — P. Falini: El proyecto del espacio de programación estratégica de las murallas y el parque Linear integrado de Roma — J. Ruiz de Arbuló: Viviendo en un circo romano. Arqueología urbana en el centro histórico de Tarragona — A. Mioni: Milán también tiene un Genius Loci. Interferencias entre la ciudad del pasado y la ciudad del presente: la impronta de la construcción y el urbanismo milaneses.
