**001** Albiez, S. & al., eds.: *Etnicidad, ciudadanía y pertenencia: prácticas, teoría y dimensiones espaciales / Ethnicity, Citizenship and Belonging: Practices, Theory and Spacial Dimensions*

2011 – 312 pp. €24,00

**002** Alexandre, F. / A. Genin: *Géographie de la végétation terrestre. Modèles hérités, perspectives, concepts et méthodes*

2012 – 302 pp. €30,16

**003** Arango Fernández, J.: *Somiedo. De la trashumancia al parque natural*

2011 – 288 pp. €24,95

**004** Arche, A., ed.: *Sedimentología. Del proceso físico a la cuenca sedimentaria*

2010 – 1.287 pp., fig. €96,00

**ÍNDICE:** A. Arche: Prólogo — A. Arche: Facies, sedimentología y análisis sedimentarias — J. F. García-Hidalgo & al.: Ambientes eólicos — A. Sopena / Y. Sánchez-Moya: Los sistemas aluviales — F. Colombo: Abanicos aluviales: procesos de transporte y acumulación de materiales detríticos — E. Colombo: Abanicos aluviales: secuencias y modelos de sedimentación — Y. Sánchez-Moya / A. Sopena: Sistemas aluviales de baja sinuosidad — C. Viseras / J. Fernández: Sistemas aluviales de alta sinuosidad — M. A. Fregenal / N. Meléndez: Lagos y sistemas lacustres — J. A. Análisis de la procedencia en depósitos arenosos — C. J. Darrio: Playas — C. J. Darrio: Plataformas siliciclásticas — J. P. Rodríguez López / A. Arche: Deltas — F. Villas & al.: Estuarios, ríos y llanuras intermareales — E. Ortí: Evaporitas: introducción a la sedimentología evaporítica — F. Ortí: Evaporitas: formaciones marinas y

continentales. Algunos ejemplos — M. I. Benito / A. Alonso: La sedimentación carbonática en mares someros: las plataformas carbonáticas — J. M. Martín / J. C. Braga: Arrecifes — J. Martín-Chivelet & al.: Contornitas y sistemas deposicionales contorníticos — R. Marfil / M. A. Caja: Diagénesis de rocas detríticas — C. Rossi: Introducción a la diagénesis de las rocas carbonáticas — A. Arche / J. López-Gómez: Relaciones entre sedimentación y tectónica — M. H. Iriondo: Las grandes llanuras.

**005** Arnould de Sartre, X. / V. Berdoulay: *Des politiques territoriales durables? Leçons d'Amazonie*

2011 – 158 pp., fig. €26,40

**006** Azcarate Luxan, B. / M. V. Azcarate Luxan / J. Sánchez Sánchez: *Geografía regional del mundo. Desarrollo, subdesarrollo y países emergentes*

2011 – 538 pp., fig. €34,61

**007** Barbier, E. B.: *Capitalizing on Nature. Ecosystems as Natural Assets*

2011 – 336 pp., 49 fig., 13 tabl. €25,30  
**ÍNDICE:** Ecological scarcity as an economic problem — Ecosystem services and ecological landscapes — The basic natural asset model — Spatial variation in ecosystems — The open economy — Ecological collapse — The way ahead — Policies in the age of ecological scarcity.

**008** Bart, F., ed.: *Natures tropicales: enjeux actuels et perspectives*

2011 – 562 pp., fig. €30,00

**009** Boon, P. / P. Raven, eds.: *River Conservation and Management*

2012 – 432 pp. €81,80

**ÍNDICE:** P. J. Boon: Revisiting the Case for River Conservation — *Catchment Conservation, Ecosystem Integrity and Threats to River Systems*: M. D. Newson: From Channel to Catchment: A 20-Year Journey for River Management in England and Wales — K. Seager & al.: The Rivers and Streams of England and Wales: An Overview of their Physical Character in 2007–2008 and Changes Since 1995–1996 — J. O'Keeffe: Environmental Flow Allocation as a Practical Aspect of IWRM — W. de Paula Lima & al.: Assessing the Hydrological Effects of Forest Plantations in Brazil — M. Z. Khan / G. Akbar: In the Indus Delta it is No More the Mighty Indus — I. P. Vaughan / S. J. Ormerod: A 20-Year View of Monitoring Ecological Quality in English and Welsh Rivers — J. R. Webster & al.: Water Quality and Exurbanization in Southern Appalachian Streams — S. J. Ormerod / I. Durance: Understanding and Managing Climate Change Effects on River Ecosystems — P. Cosgrove & al.: Scotland's Freshwater Pearl Mussels: The Challenge of Climate Change — *Methods and Approaches*: I. Dodkins & al.: Can Mediterranean River Plants Translate into Quality Assessment Systems? Venturing into Unexplored Territories — C. Vieira & al.: The Use of Bryophytes for Fluvial Assessment of Mountain Streams in

Portugal — P. J. Wood & al.: Improvements in Understanding the Contribution of Hyporheic Zones to Biodiversity and Ecological Functioning of UK Rivers — R. Marchant / B. Kefford: Taxonomic Distinctness as a Measure of Diversity of Stream Insects Exposed to Varying Salinity Levels in South-Eastern Australia — J. Leathwick & al.: Development of a Systematic, Information-Based Approach to the Identification of High Value Sites for River Conservation in New Zealand — J. Barquin & al.: Assessing the Conservation Status of Alder-Ash Alluvial Forest and Atlantic Salmon in the Natura 2000 River Network of Cantabria, Northern Spain — E. L. Seddon & al.: The Use of Palaeoecological Techniques to Identify Reference Conditions for River Conservation Management — *Recovery and Rehabilitation*: G. M. Kondolf: The Espace de Liberte and Restoration of Fluvial Process: When Can the River Restore Itself and When Must we Intervene? — M. Semrau / R. Hurck: Multi-Purpose, Interlinked and Without Barriers: The Emscher River Ecological Concept — E. U. Aberg / S. Tapsell: Rehabilitation of the River Skerne and the River Cole, England: A Long-Term Public Perspective — T. Langford & al.: The Unnatural History of the River Trent: 50 Years of Ecological Recovery — J. Rosado & al.: Key Factors in the Management and Conservation of Temporary Mediterranean Streams: A Case Study of the Pardiela River, Southern Portugal — N. T. H. Holmes / M. Janes: The History, Development, Role and Future of River Restoration Centres — *Integrating Nature Conservation Within Wider River Management*: P. Bridgewater & al.: From Stockholm to Rio II: The Natural and Institutional Landscapes Through Which Rivers Flow — M. Everard: What Have Rivers Ever Done For Us? Ecosystem Services and River Systems — J. F. Hamill / T. S. Melis: The Glen Canyon Dam Adaptive Management Program: Progress and Immediate Challenges — K. A. Wood & al.: An Individual-Based Model of Swan-Macrophyte Conflicts on a Chalk River — M. G. Braioni & al.: Integrating Habitat Conservation with Amenity and Recreational Uses Along an Urban Stretch of the Adige River, Northern Italy — A. E. Jensen / K. F. Walker: A River in Crisis: The Lower River Murray, Australia — N. Watson: The Nevis River: An Example of River Conservation in the New Zealand Context — *Dealing With an Uncertain Future*: A. R.G. Large: Current and Future Challenges in Managing Natural System Variability for River Conservation in European River Basins.

**010** Brody, S. D. / W. E. Highfield / Jung Eun Kang: *Rising Waters. The Causes and Consequences of Flooding in the United States* 2011 – 206 pp., 8 fig., 20 map., 25 tabl. €75,90

**ÍNDICE:** Introduction: rising waters — *Part I. The Consequences of Floods*: Rising cost of floods in the United States — Impacts of flooding in coastal Texas and Florida — National and state flood policy mitigation in the U.S. — *Part II. Planning Decisions and Flood Attenuation*: Identifying the factors influencing flooding and flood damage — The role of wetlands: federal policies, losses and floods — Mitigation strategies and reduction of flood damages — Other factors influencing flooding and flood damage — *Part III. What Are We Learning?*: Policy learning for local flood mitigation — Local case studies in Texas and Florida — *Part IV. Policy Implications and Recommendations*: Flood policy recommendations — Conclusion.

**011** Brooks, N. / K. Donaghy / G.-J. Knaap, eds.: *The Oxford Handbook of*

*Urban Economics and Planning*

2011 – 960 pp., 55 fig. €117,00

**ÍNDICE:** *I. Principles of Planning and Urban Economics:* N. Brooks: Teaching urban economics to planners and the role of urban planning to economists — N. Kaza / G.-J. Knaap: Principles of planning for economists — R. Arnott: What planners need to know about the 'new urban economics' — *II. Urban Structure, Growth and the Development Process:* K. Donaghy: Managing Change in Urban Infrastructure Systems" — P. Gordon / H. Richardson: Urban Structure and Economic Growth — A. Anas: Discovering the Efficiency of Urban Sprawl — J. Persky / W. Wiewel: Urban decentralization, suburbanization and sprawl: An Equity Perspective — P. McCann: The Role of Industrial Clustering and Increasing Returns to Scale in Economic Development and Urban Growth" — *III. Social and Equity Issues:* S. Ross: Social Interactions within Cities: Neighborhood Environments and Peer Relationships — H. Choi / D. Sloane: Does Working Together Prevent Crime?: Social Capital, Neighborhoods and Crime — W. W. Goldsmith: The Drug War and Inner-City Neighborhoods — B. O'Flaherty: Homelessness in the United States — P. A. Jargowsky: Urban Poverty, Economic Segregation, and Urban Policy" — L. P. Boustan: Racial Residential Segregation in American cities — M. Pastor: Spatial Assimilation and Its Discontents: The Changing Geography of Immigrant Integration in Metropolitan America — I. G. Ellen i K. O'Regan: Gentrification: The perspectives of economists and planners" — *IV. Urban Land Use and Transportation Policy:* Y. Okuyama / S. Chang: Economic and Planning Approaches to Natural Disasters — R. Green: Housing markets, prices, and policies — J. F. McDonald / D. P. McMillen: The Economics of Zoning — C. J. Dawkins: Exclusionary Land Use Policies: Economic Rationales and Legal Remedies — V. McConnell / K. Wiley: Infill Development: Perspectives and Evidence from Economics and Planning" — Y. Song / M. Stevens: The Economics of New Urbanism and Smart Growth: Comparing Price Gains and Costs between New Urbanist and Conventional Developments — R. Crane / Z. Guo "Toward a Second Generation of Land Use/Travel Models with an Application to Path Choice — A. Reynolds-Feighan / R. Vickerman: Transportation Economics for Planners in the 21st century" — G. Giuliano: Transportation Policy: Public Transit, Settlement Patterns, and Equity in the U.S — *V. Economic, Workforce and Human Capital Development:* Eric A. Hanushek and Kuzey Yilmaz: Urban Education: Location and Opportunity in the United States — K. Hollenbeck: The Role of the Workforce Development System in the Economic Development of Urban Areas — T. J. Bartik / R. Eberts: The roles of tax incentives and other business incentives in local economic development — R. Schramm: The Interface of Urban Economics and Urban Planning in Local Economic Development Practice — J. H. Kim / G. J. D. Hewings: Framing Urban Systems and Planning Concerns as a Multi-Level Problem: A Review of the Integrated Urban System Models with an Emphasis on Their Hierarchical Structures — *VI. Urban Public Finance and Governance:* L. Juntunen, Gerrit-Jan Knaap and Terry Moore "Fiscal Impact Analysis and the Costs of Alternative Development Patterns — T. M. Gordon: Addressing Local Fiscal Disparities — R. Alterman: Land use regulations and property values: The "Windfalls Capture" Idea Revisited — *VII. International Settings:* M. Echanove / R. Srivastava: The High Rise & The Slum: Speculative Urban Development in Mumbai" — M. Smolka / C. Biderman: Housing Informality: An Economist's Perspective on Urban Planning — M. Grieco: Transportation in African Cities: an Institutional Perspective — A. Kundu:

Globalisation and Urban Growth in the Developing World with Special Reference to Asian Countries” — T. Vitorisz: Third World Urban Migration as a Global Sustainability Challenge — C. Ding / X. Zhao: Urbanization and Policy in Japan, South Korea, and China: Policy and Reality.

2011 – 238 pp., fig. €18,00

**020** *Cuadernos geográficos de la Universidad de Granada, 48* — 2011-1  
2011 – 315 pp., lám.col., tabl. €40,00

**ÍNDICE:** J. Bosque Maurel: El patrimonio natural e histórico-monumental español. Algunos

problemas actuales — F. Gil Alonso & al.: Flujos migratorios en el Mediterráneo occidental: ¿causas demográficas, sociales o económicas? — M. T. Zapiain Aizpuru: Reflexiones identitarias en el territorio contemporáneo. La construcción colectiva de lugar. Caso de estudio de la Vega de Granada — O. Saladié: Cien años de observaciones meteorológicas en la comarca catalana de *Ribera d'Ebre* (1911-2011) — D. Sánchez González: Precipitaciones extremas y sus implicaciones en procesos de remoción en masa en la planificación urbana de Tampico, México — J. J. Delgado Peña & al.: La degradación ambiental de los paisajes en las cuencas tributarias de la ensenada de Sibarimar (Guanabo e Itabo, Cuba) — Z. Papadodima: Las fronteras regionales: la materia de migraciones en la geopolítica contemporánea — C. A. Gualdrón Guerrero: Desarrollo humano y crecimiento económico en Colombia — N. Sierra López & al.: Ordenamiento territorial, turismo y ambiente en Valle de Bravo, México — Crónica y notas — Tesis doctorales — Reseñas bibliográficas.

**021** Dahou, T. / M. Elloumi / F. Molle, eds.: *Pouvoirs, sociétés et nature au sud de la Méditerranée*

2011 – 269 pp., fig. €27,04

**022** Daniels, S. & al: *Envisioning Landscapes, Making Worlds. Geography and the Humanities*

2011 – 336 pp. €33,80

**ÍNDICE:***Part I. Mapping Chapter:* F. Farinelli: Why America is Called America — D. Gregory: Above the Dead Cities — K. Lilley: Digital Cartographies and Medieval Geographies — O. Chapter Mapping the Taboo Gunnar — K. Olwig: ‘Choros, Chora’ and the Question of Landscape — S. Schulten: Thematic Cartography and the Study of American History — *Part II. Reflecting:* E. S. Casey: Do Places Have Edges? A Geo-Philosophical Inquiry — T. Cresswell: Race, Mobility and the Humanities: A Geosophical Approach — J. N. Entrikin: The World in Plain View — M. Heffernan: Courtly Geography: Nature, Authority and Civility in Early Eighteenth Century France — D. Livingstone: Darwinian Landscapes — A. Pagden: Travel and the Domination of Space in the European Imagination — Y.-F. Tuan: The Good Inherit the Earth— *Part III. Representing:* J. Cocola: Putting Pablo Neruda’s ‘Alturas de Machu Picchu’ In Its Places — S. Daniels: Great Balls of Fire: Envisioning the Brilliant Meteor of 1783 — D. K. Davis: Reading Landscapes and Telling Stories: Geography, the Humanities and Environmental History — D. de Lyser: Participatory Historical Geography? Shaping and Failing to Shape Social Memory at an Oklahoma Monument — J. Dubow: Still-Life, After-Life ‘Nature Morte’: W.G. Sebald and the Demands of Landscape — M. Gandy: The Texture of Space: Desire and Displacement in Hiroshi Teshigahara’s ‘Woman of the Dunes’ — D. Lowenthal: Restoration: Synoptic Reflections — J. Schwartz: Overlapping Ambiguities, Disciplinary Perspectives and Metaphors of Looking: Reflections on a Landscape Photograph — *Part IV. Performing:* V. della Dora: Inverting Perspective: Icons’ Performative Geographies — S. Hones: Literary Geography: The Novel as a Spatial Event — J. Jacobs: Materialising Vision: Performing a High-Rise View — F. MacDonald: Technician of Light: Patrick Geddes and the Optic of Geography — M. Pearson: Deserted Places, Remote Voices: Performing Landscape — G. Rose: Photography and Its Circulations — J. Sanders: Beyond

the Power of Art to Represent?: Narratives and Performances of the Arctic in the 1630s — K. Yusoff: Navigating the Northwest Passage.

**023** Demetrio, V. / P. Giaccaria: *Geografía del sistema manufacturiero piemontese. Nuove forme di organizzazione e coordinamento*  
2010 – 199 pp. €23,00

**024** Dougherty, P. H.: *The Geography of Wine: Regions, Terroir and Techniques*  
2012 – xii + 255 pp., 88 fig. €106,95

**ÍNDICE:** Wine and Viticulture: A Geographer's Perspective — Terroir: At the Heart of Geography — Geography and the American Viticultural Areas Process, Including a Case Study of Lodi, California — *Regional:* Bordeaux and Burgundy: A Comparison of Two French Wine Regions in Transition — The Okanagan Wine Region of British Columbia, Canada — *Physical:* The Importance of Soil and Geology in Tasting Terroir; A Case History from the Willamette Valley, Oregon — Climate, Grapes, and Wine: Structure and Suitability in a Variable and Changing Climate — *Cultural/Economic:* The South African Wine Industry: Meeting the Challenges of Structural and Ethical Transformation — Competitiveness and Sustainability in Wine Tourism Regions: The Application of a Stage Model of Destination Development to Two Canadian Wine Regions — Northern California through an Economic Geographer's Lens — The Origin, Diffusion, and Globalization of Riesling — *Techniques:* Remote Sensing for Viticultural Research and Production — Geospatial Tools and Techniques for Vineyard Management in the 21<sup>st</sup> Century.

**025** Droulers, M. / F. Michel Le Tourneau, eds.: *L'Amazonie brésilienne et le développement durable*  
2011 – 477 pp., fig., map. €32,00

**026** Dumont, I., ed.: *Pour une géographie sociale: regards croisés France-Italie. Actes des rencontres franco-italiennes de Parme (février 2008)*  
2011 – 359 pp., fig. €22,00

**027** Farina, A.: *Ecología del paisaje*  
2011 – 688 pp., fig. €39,00

**ÍNDICE:** A. Virzo de Santo: Presentación — E. Seva: Prefacio — *I. Principios:* Marco de la disciplina — Nacimiento y evolución de la ecología del paisaje — Funciones ecosistémicas y funciones corológicas dentro de la definición del paisaje — El *eco-field* como dimensión perceptible del paisaje — Clasificar los paisajes — La teoría de la biogeografía insular — La macroecología — La teoría jerárquica — Los sistemas fuente-sumidero (*source-sink*) — Complejidad, información y estados entrópicos de los sistemas ecológicos — La escala en ecología y las propiedades escalares de los paisajes — La estructura de los paisajes: génesis,

heterogeneidad, manchas y matrices. Teoría de la percolación — Caracteres estructurales de los paisajes: los ecotonos — Teorías y modelos de las metapoblaciones — Dinámica de los paisajes: la perturbación — Dinámica de los paisajes: la fragmentación — Propiedades emergentes de los paisajes: estabilidad, resiliencia, ascendencia y autocatálisis — Dinámicas de los paisajes: el flujo de materiales y nutrientes — 2. *Métodos*: Introducción a los métodos de análisis del paisaje — Índices numéricos, espaciales y de conectividad para el análisis del paisaje — Elementos de estadística espacial — La aplicación de los fractales a la ecología del paisaje — Los modelos neutros — Los sistemas de información geográfica (SIG) — Los sistemas de posicionamiento global (GPS) — Análisis de las imágenes digitales — 3. *Aplicaciones*: Estructura y dinámica de poblaciones y comunidades animales en el paisaje — La valoración de los paisajes — La gestión de los paisajes — La conservación de los paisajes — Los paisajes culturales — *Apéndice*. Respuestas a las preguntas.

**028** Fernández Macarro, B. / S. Monterrubio / M. Yenes: *Geología y vino en Zamora*

2011 – 183 pp., lám.col. €20,00

**ÍNDICE**: Geología y vino — Metodología — Denominación de origen Arribes — Denominación de origen Tierra del vino de Zamora — Denominación de origen Toro — V.C.P.R.D. Valles de Benavente — Cuatro rutas geo-enológicas — Anexos.

**029** Filho, W. L.: *Experiences of Climate Change Adaptation in Africa*

2011 – x + 315 pp., 70 fig. €106,95

**030** Fischer, M. M. / J. Wang: *Spatial Data Analysis: Models, Methods and Techniques*

2011 – viii + 80 pp., 5 fig. €53,45

**031** Fisher, M. J. / S. E. Cook, eds.: *Water, Food and Poverty in River Basins. Defining the Limits*

2012 – 406 pp., 50 fig. €122,50

**ÍNDICE**: Preface Asit K. Biswas — *Part 1. The Basin Focal Projects*: Introduction to Part One — The Andes Basins: Biophysical and Developmental Diversity in A Climate of Change — The Indus and The Ganges: River Basins under Extreme Pressure — The Karkheh River Basin: The Food Basket of Iran Under Pressure — Vulnerable Populations, Unreliable Water and Low Water Productivity: A Role for Institutions in the Limpopo Basin — The Mekong: A Diverse Basin Facing the Tensions of Development — Water, Agriculture and Poverty in The Niger River Basin — The Nile Basin: Tapping the Unmet Agricultural Potential of Nile Waters — Farming Systems and Food Production in the Volta Basin — Yellow River Basin: Living with Scarcity *Part 2. Cross-Basin Analysis and Synthesis*: Water, Food and Poverty: Global – and Basin-Scale – Analysis — Water Availability and Use Across the Challenge Program on Water and Food (CPWF) Basins — Producing More Food with Less Water in a Changing World: Assessment of Water Productivity in 10 Major River Basins — The

Resilience of Big River Basins — The Nature and Impact of Climate Change in the Challenge Program on Water and Food (CPWF) Basins — Connections between Poverty, Water and Agriculture: Evidence from 10 River Basins — Institutions and Organizations: The Key to Sustainable Management of Resources in River Basins.

**032** Foucher, M.: *La bataille des cartes. Analyse critique des visions du monde.* (P. Orcier, cartographe)  
2011<sup>2</sup> – 192 pp., lám.col. €39,00

**033** Freire Cedeira, A.: *En defensa de lo suyo. Propiedad forestal y conflictividad social durante el franquismo: los montes vecinales de Cerceda (A Coruña)*  
2011 – 144 pp., 14 fig. €10,00

**034** Frink, D.: *Explorations into a Dynamic Process-Oriented Soil Science*  
2011 – 126 pp. €104,00

**ÍNDICE:** Introduction to a Dynamic Process-Oriented Soil Science — Soil Science in Historical and Philosophical Perspective — Self-Organization as a Result of Perturbations in a Dynamic Process-Oriented Soil Science — Soil Physiology: Processes of a Dynamic — The OCR Procedure as Applied Dynamic Process-Oriented Soil Science: The Initial Iterations of the OCR Formula — Applications of OCR Dating — Implications and Potentials of a Process-Oriented Soil Science.

**035** Froger, G., ed.: *Tourisme durable dans les suds?*  
2010 – 316 pp., fig.. €47,00

**ÍNDICE:** G. Froger: Tourisme et développement durable dans les pays du Sud: quels enjeux? — E. Rodary: Créer du lien social par le tourisme, une utopie soutenable? — G. Froger & al.: L'écotourisme dans les Suds: entre mythes et réalités — M. Marzouki & al.: Le(s) tourisme(s) au regard de l'exigence de durabilité environnementale. Une analyse à l'aide de l'empreinte écologique — D. Requier-Desjardins: Le tourisme rural peut-il contribuer au développement local durable dans les pays du Sud? — G. C. Le Drian: Financer et promouvoir un tourisme durable: une filière importante du développement — P. Méral: Tourisme et conservation: tentations africaines — D. Andrianambinina: L'écotourisme à Madagascar: solution ou mirage? — M. Marzouki: Les enjeux du développement touristique pour les régions de l'ouest de la Tunisie — R. Lapeyre: Le tourisme communautaire comme un moteur de développement durable en Namibie? — D. D. Kervran / S. Velut: Évaluer les modalités émergentes d'un tourisme durable en Amérique latine — É. Wolff: Le tourisme culturel et communautaire en Argentine: moteur ou illusion d'un développement durable? — M. Bonnin: Le tourisme rural communautaire, une spécificité du tourisme durable costaricien — G. Froger / R. Lapeyre: Vers un tourisme durable dans les Suds? — Conclusion générale.

**ÍNDICE:** A. Clarke & al.: Introduction: Antarctic ecology in a changing world — *Part I. Terrestrial and Freshwater Habitats*: S. L. Chown / P. Convey: Spatial and temporal variability in terrestrial Antarctic biodiversity — D. H. Wall: Global Change in a Low Diversity Terrestrial Ecosystem: The McMurdo Dry Valleys — D. A. Pearce / J. Laybourn-Parry: Antarctic lakes as models for the study of microbial biodiversity, biogeography and evolution — *Part II. Marine Habitats and Regions*: A. Clarke & al.: The impact of regional climate change on the marine ecosystem of the western Antarctic Peninsula — H. W. Ducklow & al.: The Marine Ecosystem of the West Antarctic Peninsula — E. J. Murphy & al.: Spatial and Temporal Operation of the Scotia Sea Ecosystem — W. O. Smith & al.: The Ross Sea Continental Shelf: Regional Biogeochemical Cycles, Trophic Interactions, and Potential Future Changes — S. Nicol / B. Raymond: Pelagic ecosystems in the waters off East Antarctica (30°E–150°E) — D. K. A. Barnes / K. E. Conlan: The dynamic mosaic: Disturbance and development of Antarctic benthic communities — A. Brandt & al.: Southern Ocean deep benthic biodiversity — P. N. Trathan & al.: Environmental forcing and Southern Ocean marine predator populations: effects of climate change and variability — *Part III. Molecular Adaptations and Evolution*: C.-H. C. Cheng / H. W. Detrich III: Molecular ecophysiology of Antarctic notothenioid fishes — H. O. Pörtner & al.: Mechanisms defining thermal limits and adaptation in marine ectotherms: an integrative view — A. D. Rogers: Evolution and biodiversity of Antarctic organisms; a molecular perspective — *Part IV. Conservation and Management Aspects*: P. Convey & al.: Biogeography and regional classifications of Antarctica — S. M. Grant & al.: Conservation and Management of Antarctic Ecosystems.

**127** Rosenzweig, C. / W. d. Solecki / S. A. Hammer / S. Mehrotra, ed.: *Climate*

*Change and Cities. First Assessment Report of the Urban Climate Change Research Network*

2011 – 312 pp., 94 fig., 15 tabl. €37,95

**ÍNDICE:** Introduction — *Part I. Defining the Risk Framework:* Cities, disasters and climate risk — Urban climate: processes, trends and projections — *Part II. Urban Sectors:* Climate change and urban energy systems — Climate change, water and wastewater — Climate change and urban transportation systems — Climate change and human health in cities — *Part III. Cross-Cutting Issues:* The role of urban land in climate change — Cities and climate change: the challenges for governance.

**128** Ruas, A., ed.: *Advances in Cartography and Giscience*, 1. Selection from ICC 2011, Paris

2011 – xvi + 558 pp., 338 fig. €181,85

**129** Sage, C.: *Environment and Food*

2011 – 320 pp. €31,45

**ÍNDICE:** Introduction: Why Environment and Food? — The Global Agri-Food System — The Ecological Basis of Primary Food Production — Global Challenges for Food Production — Final Foods: Transformation, Transportation and Waste — Food Security: Issues and Challenges — Towards A Sustainable Agri-Food System — Conclusions.

**130** Salat, S.: *Les villes et les formes. Sur l'urbanisme durable*

2011 – 544 pp., lám.col. €49,00
